The choice of millions
of dentists worldwide

Implanter

Precision strength safety

Implanter Your favorite assistant of high-precision
dental implanting treatment

Outstanding quality makes it your solid choice

Implanter adopts mute motor imported from Swiss.
Advanced FOC controlling technique blends low speed performance with high speed performance.
In order to verify the clinical features of flexible response and stable safety,
Implanter R & D personnel go into the operating room,
getting them involved in clinical applications.
Under the instruction and assistance of experts from home and abroad,
they finally complete the clinical optimization of product.
Woodpecker spares no efforts to provide you high quality products.

Intuitive user interface

Wide color screen with simple and delicate interface
Eight modes for option; accommodate all implanting system
Color touch screen and glass surface bring you better operating experience
Accurate torque control and real-time display ensure surgical safety

Motor with precision and strength

Imported powerful Swiss motor

6.2Ncm motor torque can guarantee 80Ncm output torque,
making difficult surgery easier

Motor and cable can be autoclaved.

Lighter micro motor realize flexible operation

LED motor enables more efficient and accurate treatment.

Strong and stable contra-angle

- LED contra-angle ensures visibility, helping to achieve treatment of high accuracy and efficiency.
- High precision contra-angle with tiny oscillation enables stable torque output under high speed and low speed.
- Imported advanced bearings guarantee performance and durability of contra-angle.

Color touch screen with glass surface

The colour touch screen with its glass surface makes operation of the control unit simple and intuitive. The glass surface is easy to clean. Wiping disinfection ensures safety in treatment area.

Flexible multi-function foot pedal

Multi-function foot pedal can realize aseptic operation and liberate two hands.

Mute peristaltic pump

Mute peristaltic pump water supply system is easy to connect. Be compatible with disposable oral water pipe to ensure safety of treatment.

Perfect balance

Balancing between weight of contra-angle and motor guarantees better holding

Perform prolonged operation without fatigue

LED contra-angle ensures visibility, helping to achieve treatment of high accuracy and efficiency.

High-precision and high-quality Contra-angle

High-precision machining with a high hardness scratch-resistant coating guarantee performance and longevity

Ergonomic design enables fatigue-free operation

Contra-angle can be autoclaved under high temperature and high pressure

Provide best cooling and illumination for operation
